COURSE COORDINATOR	: SUMIT KUMAR CHOUDHARY, Asst. Prof. (Forensic Science), RSU
ORGANIZED BY	: RAKSHA SHAKTI UNIVERSITY, AHMEDABAD
VENUE	: RSU AHMEDABAD CAMPUS

NEED OF THE COURSE:

Successful investigation of a criminal case is closely co-related with successful crime scene management which embraces preservation of scene of offence and strategic evidence collections with greater accuracy from the scene of offence. It requires a patient, calculative and careful effort to collect substantial linking evidences to establish the crime in the court of law beyond reasonable doubt. With the criminal activities getting modernized in recent years, the Crime Scene Manager too requires to plan out accordingly regarding the precautions and strategies that are needed to be taken care of before proceeding to the scene of crime for collection of evidence. In a country like India, usually the public reaches the scene of crime before the police and team of experts reach the spot, thereby destroying the evidences and making a mess of crime scene. At the same time, India being a hot and humid country, degradation of biological-chemical evidences occurs very fast. In a situation like this, the first and foremost step of a Crime Scene Manager should be to preserve the crime scene and to protect the available evidences from further contamination and degradation.

So the need of such a specialized and skill development oriented course can never be over-emphasized. Crime scene management is a skill which can be learnt and imbibed through proper training and practice. Effective crime scene management may lead to proper presentation of cases in the court of law and thus increased number of convictions. The course will play a vital role in the administration of justice to an awakened society.

OBJECTIVES OF THE COURSE:

- ✚ To introduce the participants with modern approaches and advanced techniques employed in crime scene management.
- ✚ Protecting the crime scene to be highlighted as a vital step in crime investigation.
- ✚ To make participants competent in various aspects of crime scene management.
- ✚ To improve public perception of police by improving their working methodology & handling of cases.
- ✚ To strengthen the lower functionaries of police or the “limbs of law” by enhancing their executive potential.
- ✚ To create a reservoir of trained personnels.
